

# THE RECYCLING BOX: HOW DOES IT WORK?

TVH sends you an empty box (postage paid)

Collect your used parts and keep a list of references

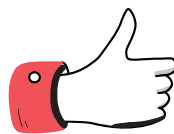

Is the box full? Send the list of references to [cores@tvh.com](mailto:cores@tvh.com)

TVH will collect the box at our expense and replace it with an empty box. TVH gives you an order number.

Prepare the box for transport: send us the dimensions and weight of the box, the pick-up address and all contact details

Our team will prepare a price quote for you

After inspection of the core(s), TVH draws up an offer

Once both parties agree on the price, you send an invoice to TVH with our purchase order number on it

After receiving your invoice, TVH will pay your invoice

If you have any questions about the process, contact [cores@tvh.com](mailto:cores@tvh.com) or [cores.electronics@tvh.com](mailto:cores.electronics@tvh.com) for more information.
