

E.C.M.[®] CHAIN

Powered by T.V.H., your partner for Material Handling

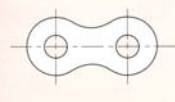

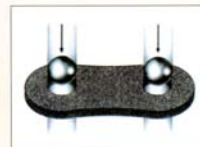

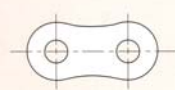

To fulfill the commercial needs of the customers, TVH has now launched a new chain. A high-quality chain, produced with state-of-the-art machinery in the most modern factories. TVH's know-how has been combined with that of our production partner to produce this new chain, characterised by an extremely high price-quality ratio.

- Available off the shelf from Gullegem/Waregem. European deliveries within 24 hours.
- Best price-quality ratio
- All chains were manufactured in accordance with ISO9001 and ISO9002
- All chains are pre-stretched and lubricated.
- The breaking strength of the chain largely exceeds the DIN-standards

Product range:

- Vast range of roller chain:
 - Standard DIN and ASA roller chains
 - Simplex, duplex and triplex version
 - Pitch ranging from 1/4" to 2"
 - Wide range of stainless steel chain
 - All types of chain links available
 - Supplied in a box of 5 metres with end link
- Vast range of fleyer chain:
 - Most common fleyer chain (up to 1" pitch), available from the shelf
 - End links optionally available
 - Supplied per coil of 10 or 25 metres

 ▲ Common link plate contours	 ■ Ball drift The plate holes are finally ball-burnished to assure maximum resistance to fatigue failure.	 ■ Shot Peened Parts Link plates and rollers are shot peened for greater fatigue strength.
 ▲ Wide-waist link plate contours ■ Design of link plate waist Increase in width of waist for combating fatigue
